Hospital Program 2020-2021

August Promotion 2

For August have your auxiliary put their heads (socially) together to figure out the best course of safe distancing for our veterans'.

Most Hospitals, Nursing homes will not permit in person visitors. See if you can adopt a veteran and call them or face time them.

See what is acceptable during this time.

Send cards, see if you can do a drive by patriotic parade.

See if you can get the youth involved and draw (with chalk) on the sidewalks outside of the facility with warm hearted messages.

Our auxiliary is very creative. See what you can come up with and share your ideas.

Keep track of the actions your post take and save them for the November reports.
Thank you in advance for your participation. Stay Safe.

Please share ideas.
