## Hospital Program 2020-2021

### July Promotion 1

For July have your auxiliary put their heads socially to get to figure out the best course of safe distancing for our veterans'. Most Hospitals, Nursing homes will not permit in person visitors. See if you can adopt a veteran and call them or face time them.

See if the facility will accept cards and letters. Go old school, make and send the residents Happy Forth of July cards or thinking of you cards.

Our auxiliary is very creative. See what you can come up with and share your ideas.

Keep track of the actions your post takes and save them for the reports.  
Thank you in advance for your participation. Stay Safe.

Please share ideas.
